THE SOFTWARE INCLUDED

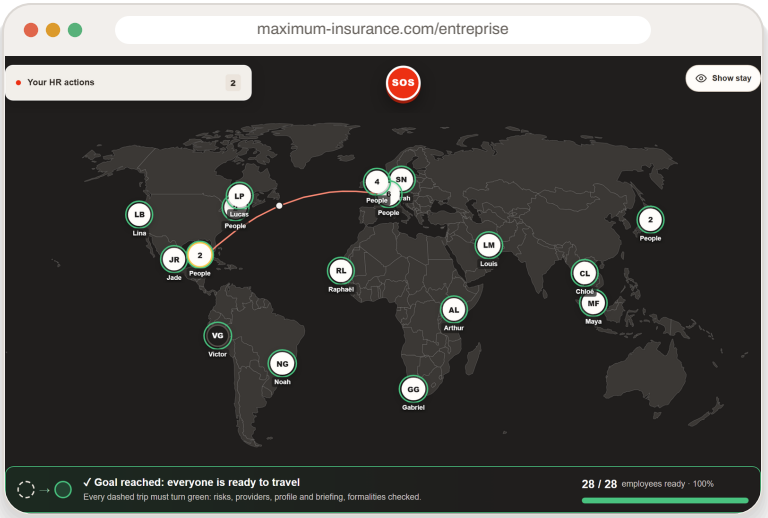
Assess, prepare, track, prove.

One space for HR and every traveller, at no extra cost and with nothing to install. The software prepares; your company decides.

Your first departure, in four steps

1. **Risk assessed**
   HR · dated sources, four dimensions
2. **Providers checked**
   HR · hotel and transport checked
3. **Profile and briefing confirmed**
   Traveller · private space, quiz
4. **Formalities checked**
   HR and traveller · A1, visa, statement

Ready to go · 100%
You decide; the file is dated and kept



The demo HR cockpit: twenty-eight employees, all ready to go.

THE SOFTWARE'S 13 FUNCTIONS

HR and every traveller, in the same space

Dynamic risk mapping and scoring

Every destination assessed with dated sources, reviewed when advice changes.

Inclusive profiles and vulnerabilities

The traveller confirms their needs privately; HR only see the confirmation.

Cyber and information risk

Devices, VPN, Wi-Fi: the stay's cyber guidance, read before departure.

Provider risk management

Hotels and airlines checked; a blocked provider prevents approval.

Entry and posting formalities

A1, visa, passport, mission statement: prefilled and tracked until HR validation.

Open Booking · off-channel bookings

A ticket booked outside the agency? The traveller imports it into their stay.

Business / Leisure separation

Personal days are declared; location sharing pauses on those days.

Hierarchical approval workflows

A reasoned go-ahead; high risks need two approvers, including leadership.

Briefings and learning acknowledgements

Destination guide, guidance and a three-question quiz; reading is time-stamped.

GPS tracking, geofencing and PNR

Planned places on the map; position only when the traveller shares it.

Crisis messages, Check-in and SOS

Stay thread, check-in and SOS; management is alerted at once.

Near-miss reporting

A near-miss is reported and followed through to the corrective action.

Audit trail and integrity log

Every action dated and attributed, SHA-256 chained, exported with a manifest.

ISO 31030

The 22 recommendations, in 7 steps: the detail is in the Duty of Care factsheet.
